PROFESSIONAL EXPERIENCE

Content Management System(CMS)

Apr 2011 - Present

Team Lead

Successfully led the development of a modular, scalable CMS tailored for content-driven businesses.

Oversaw full project lifecycle and mentored a cross-functional development team.

Delivered a system now actively used by multiple clients for managing and publishing content.

Learning Management System(LMS)

Aug 2020 - Present

Full-Stack Developer

Built a web-based LMS for managing courses, student data, and performance insights.

Handled both frontend and backend with a focus on scalability and usability.

Deployed across training centers to improve efficiency and learning outcomes.

Custom CMS Platforms

Apr 2014 - Present

Back-End Developer

Built scalable backend systems for custom CMS platforms across various business domains.

Handled database design, API development, and role-based access control.

Delivered flexible, secure solutions integrated with dynamic frontend interfaces.
